Safe Tan Steps: 3 Simple Steps to a Beautiful Golden Bronze Tan

Step 1: Buffing Cream – while in the shower, use Buffing Cream all over your body – I like to use it on a netted sponge or wash cloth. Then use the Buffing Cream to also shave your legs. It will feel wonderful!

Step 2: Hydrating Body Lotion - When you get out of the shower towel dry and then immediately use Hydrating Body Lotion and Massage all over your body.

Step 3: Sunless Tanning Lotion – immediately after applying Hydrating Body Lotion, use Sunless Tanning Lotion. It is best to work in small areas at a time, starting with your legs and working upwards. Take a small amount (quarter size) of Sunless Tanning Lotion massage into hands to evenly distribute, starting at the lower leg area. Smoothing on in an upward and/or circular motion (Do not do knees, ankles, or foot area first), with the product that is left on your hands now go over your knees, ankles and foot area. Then do the upper leg area, torso, chest, arms etc. Remember areas that have more folds of skin, apply last and sparingly (knees, etc.). Wash your hands immediately to avoid staining!
